What are sight words?

Sight words are words that are commonly used in English and that young children need to learn to recognize instantly. This helps them to read more fluently and with better comprehension.

There are 100 sight words, and they make up about 50% of the words that children read in English text.

Why is it important to learn sight words?

There are many benefits to learning sight words, including:

- Improved reading fluency
- Better reading comprehension
- Increased vocabulary
- Greater confidence in reading

How can I help my child learn sight words?

There are many different ways to help your child learn sight words. Some popular methods include:

- Flashcards
- Word walls
- Games
- Songs
- Books

This lesson uses a combination of these methods to help your child learn sight words in a fun and engaging way.

Materials:

- Pictures of kittens and cats
- Index cards
- Markers
- A whiteboard or chart paper

Instructions:

1. **Introduce the concept of sight words.** Explain to your child that sight words are words that they need to be able to recognize instantly. 2. **Show your child the pictures of kittens and cats.** Talk about the pictures and point out the sight words that are in them. 3. **Make flashcards of the sight words.** Write each sight word on an index card. 4. **Play a game of "Go Fish."** Lay out the flashcards face down on the table. Have your child take turns flipping over two cards at a time. If they match, they keep the cards. If they don't match, they put the cards back down on the table. The first person to collect all of the cards wins. 5. **Create a word wall.** Post the flashcards on a wall or bulletin board. This will help your child to practice recognizing the sight words. 6. **Sing a sight word song.** There are many different sight word songs available online. Singing a song is a fun and effective way to help your child learn sight words. 7. **Read books to your child.** Point out the sight words as you read. This will help your child to see how sight words are used in context.

Tips:

- Make learning sight words fun. Use games, songs, and other activities to keep your child engaged.
- Be patient. It takes time for children to learn sight words. Don't get discouraged if your child doesn't learn all of the words right away.
- Practice regularly. The more your child practices, the better they will become at recognizing sight words.

Learning sight words is an important step in your child's reading development. By using this lesson, you can help your child learn sight words in a fun and engaging way.
